### Response #1:

I have had to use the GP Surgery a couple of times over the last 2 months. On each occasion I have contacted the surgery the reception staff have been fantastic, polite and very helpful. I was seen by Dr Oxenham and he was very good, polite and informative. I required onward referral to hospital for further urgent assessment and investigations. I am on the road to recovery now but wanted to make sure this feedback was given. Thank you

### Response #2:

Always had very good and prompt service and appointments
