5.	Guest	Speaker:	Adrian to write a synopsis of
	•	Adrian, Practice Pharmacist – Adrian is solely	his role for the Patient
		attached to Bovey Tracey & Chudleigh Practice.	Newsletter
		His main role is to answer queries, either from	
		patients or GPs, changing repeat templates and	
		doing medication reviews.	
	•	The PCN currently have 3 pharmacists, one based	
		at each Practice, and 2 pharmacy technicians	
	•	Pharmacy technicians hold NVQ Level 3	
		qualifications, and are often the more senior of	
		the dispensing staff out in the community	
	•	Pharmacy technicians deal with any medication	
		changes or queries raised in discharge summaries,	
		synchronisation of patient's medications and	
	_	audit work	
	•	Adrian is qualified in his own right to prescribe	
		and is also currently heavily involved with	
		managing patients' blood pressures, and cholesterols (lipids)	
	٠	Reception staff are trained to streamline	
	•	workload to be dealt with by the most	
		•	
	•	appropriate person It was agreed that Adrian would right a piece on	
	•	his role within the Practice to go out in the next	
		patient newsletter	
	•	Community pharmacies are also providing a New	
	-	Medicines Service which essentially provides	
		information to patients on their new medications	
		and then the pharmacy reviews the patient after	
		a month/six weeks of taking the medication to	
		see how they are getting on	
	•	A question was raised on "yellow cards" – Adrian	
		confirmed that practices use them to flag up	
		adverse reactions on patients' records. Patients	
		can also do this from home by going onto the	
		MHRA website
