Response #1:

New to the area and uncertain on the registration process, which was explained clearly and with a smile.

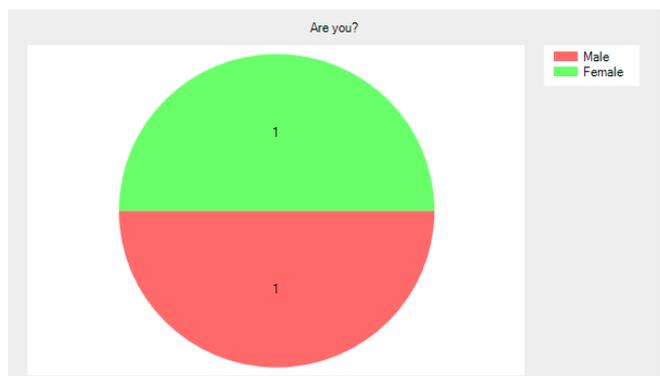

Response #2:

I had to review my medical records to find out information on procedures I had done over 20 years ago. The paperwork in my archived records was in excellent condition and dated. This speaks volumes about the integrity of your procedures, record keeping and conscientiousness in looking after us. Thanks to all of you who, from the person that filed the paperwork over 20 years ago, the person that sat with me whilst I searched the records and to Dr Thomas who reviewed them. And finally to Audrey who kept me informed throughout the process. Many thanks
