Excellent demeanour from telephoning in and arranging a Monday am phone consultation with my own GP. He then rang me during the morning as I had been told - agreed best to see me re swollen legs and feet. I came for the appointment, given excellent advice and antibiotics, so I felt very reassured

Response #15:

Excellent service

Response #16:

Conscientious, caring and considerate in general. The odd nurse can be a little disgruntled; a warming smile means a lot.

Response #17:

One or two of the nurses can be a little sharp, whilst the others are lovely!

Response #18:

Excellent service - no complaints!

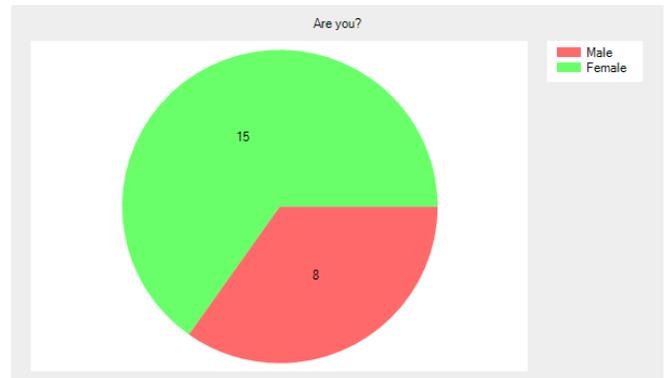

Response #19:

I arrived early at 8.25am and the surgery door was closed with information saying the surgery opened at 8.30am. There were several people waiting and a bench for people to sit. However, having run a practice myself, we always were open 15 minutes early at reception as well as the waiting room. This is a service NOT a shop and I feel patients should be allowed to come in especially in the Winter. If it were raining/cold etc patients would be at risk waiting outside. If the nurses appointment is at 8.30am, with the doors opening then at 8.30am the nurse is always on the back foot running 2-3 minutes late at best. Otherwise very satisfactory.
