Response #1:

My email enquiry was promptly responded to and my GP phoned me a couple of hours later. He asked me to come to the surgery then if I could. After examining me, he prescribed some medication and enabled me to get this treatment that afternoon from the neighbouring pharmacy. I was very grateful as the problem was quite minor and I would have waited but he sorted it straightaway I feel very well cared for as does my husband who's experience has been similar.
