or

Riverside and Tower House PPG

Our PPG was established by our GP surgery to facilitate good relations between patients and the practice by communicating patient experience, interests and concerns. The core group meets every couple of months and provides constructive feedback to the practice on current services and any proposed new developments to help improve services and facilities for patients. In addition a 'virtual group' contributes via email.

Further information is on the website www.towerhousesurgery.co.uk/pages/Patient-Participation-Group, email btcp.ppg@nhs.net or ask at the surgery
